

All I have to say is PLEASE leave our XM-Radio alone! I choose to pay for radio service for a variety of reasons but the best one is I travel for a living and I need Traffic and Weather that is not a service in which is on the public radio 24 hrs. There are worse things on public tv that the FCC does not fuss about and there still there. I have the right to pay for the services I CHOOSE to listen to. Just as I pay for pay channels on tv to watch what I want with out it being cut up. AGAIN I PAY FOR IT! I'm not bothered by commercials, and cut up movies just as it should be I PAY FOR IT! I have a choice for children, teens and adults and XM lets you know what channels are available to them. MY CHOICE! Another reason, I get a to choose what I want to listen to an unlike regular radio I DON'T its all the same thing, songs played over and over within the same hour, Commercials (I can not stand). as well as others pay to keep this on air and if this was something I did not believe in I would not have purchased the device and paid 2 yrs for my service. Please find something else to pick on and leave our radio alone.
